WHAT DAY 1 TELLS US

About **6 in 10** voters engaged backed Sen. Ekpenyong and only **2.3%** were openly opposed. Among voters who gave a clear position, support stands at **79%**. Biase leads at **62%** and Bakassi trails at **52%**, but Calabar Municipal carries 26% of all conversations, so its 188 undecided and call back voters are the biggest pool to convert.

- **Follow up** · Needs a call back (network, busy, language, noise)
- **Volunteer** · Willing to work / mobilise for the campaign
- **Negative** · Opposed / other party
- **Undecided** · Not committed, hung up or conditional support
- **Inapplicable** · Wrong number, can't vote, not resident or not in town

REACH × SUPPORT × PERSUADABLES

Interrelationship of the three ward drivers

Wards to the **right** are where we have talked to the most voters; wards **higher up** are warmer; **bigger bubbles** hold more undecided and call back voters still to be won.

WARD SIGNALS

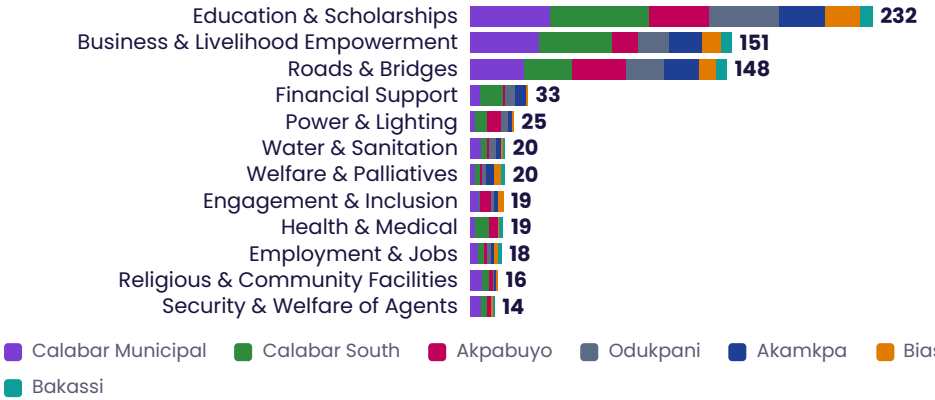

Ward 04 (Calabar South) is the warmest well covered ward (74% supportive, n=47). **Ward 05 (Calabar Municipal)** is the coolest (45%, n=53) and needs attention. **Ward 07 (Calabar Municipal)** holds the largest persuadable pool (26 undecided and call back voters). Ward 01 (Calabar Municipal) and Ward 08 (Calabar Municipal) alone make up 6% of all conversations, so the Day 2 call list should widen coverage across Bakassi wards.
