Of these, **374** need a call back and **194** are not usable (wrong number, can't vote, relocated).

NON IMPRESSIONS

1,656 42.8% of dials

Not reachable **864** · Unanswered **709** · Rejected **34** · Switched off **39** · Barred **10**

READING THE GAP

Non impressions outnumber follow ups 4 to 1. Unreachable numbers are a **data** problem (dead or rotated SIMs), while unanswered calls are a **timing** problem, so retry the 709 unanswered numbers after 16:00 and early the next morning.

HOURLY VOLUME, REACH AND SUPPORT

Stacked bars = dial outcomes · lines = rates

CALL DURATION BY IMPRESSION

Connected calls only

TIME SIGNALS

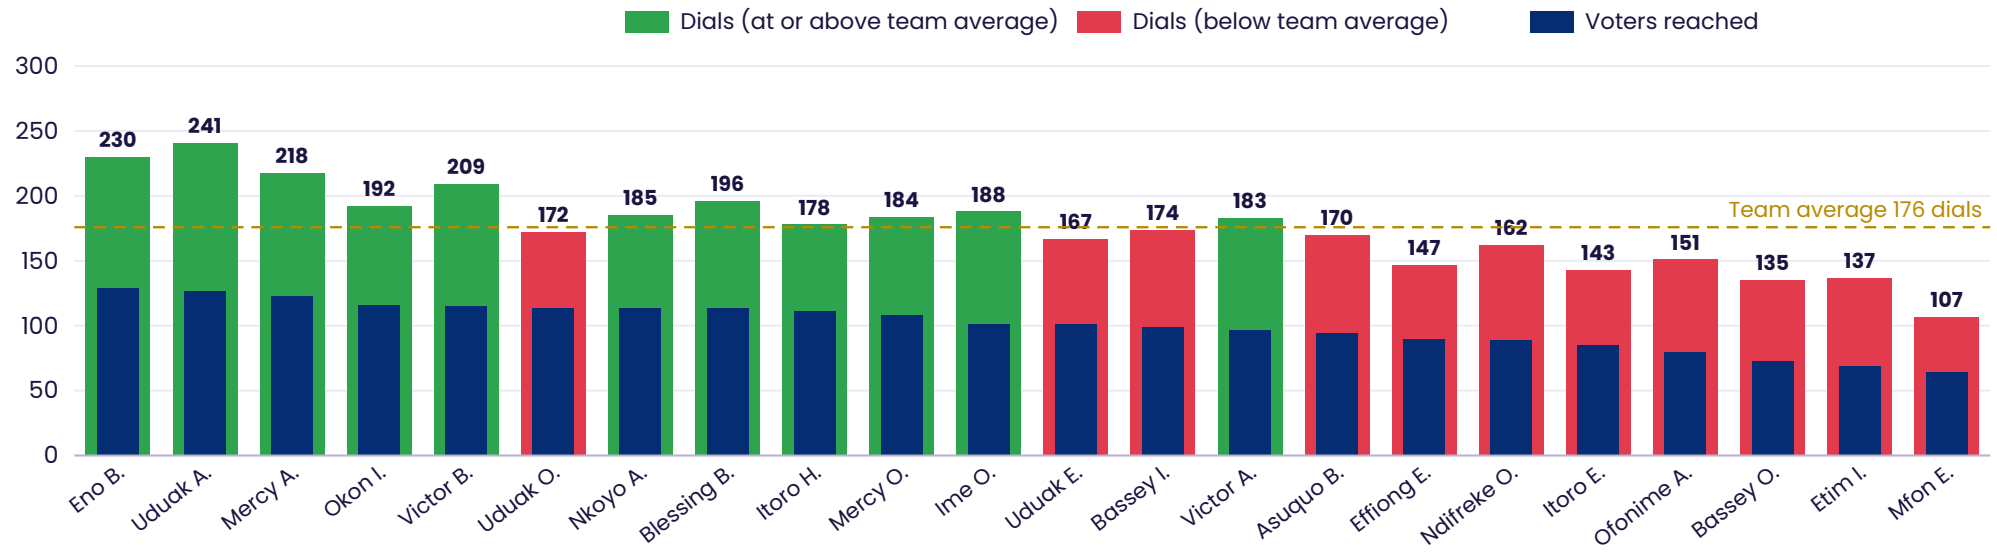

- Peak output at **10:00** (558 dials). Mid morning (09:00 to 12:00) produced 43% of the day.
- Volume fell to **226** at 13:00. Plan staggered breaks so lines never go fully quiet.
- Reach was weakest at **15:00** (54%); voters are hardest to catch at that hour.
- Supportive calls last about **97s**, volunteers **139s**. 80 positives under 20 seconds should be spot checked.

PRODUCTIVITY VS QUALITY

Dials vs feedback capture

STAFF SIGNALS

- **Top 3 by impressions:** Eno Bassey (129), Uduak Antigha (127), Mercy Asuquo (123).
- **Well below team average:** Bassey Otu (135 dials), Etim Ikpeme (137 dials), Mfon Effiong (107 dials) made under 80% of the 176 dial average.
  Early finish: Bassey Otu stopped calling at 13:24. Etim Ikpeme stopped calling at 13:36. Mfon Effiong stopped calling at 13:23.
- **Speed vs depth:** Uduak Antigha logged 241 dials at about 29 an hour, averaging 59s per call against a team average of 70s.
- **Feedback gaps:** 2 agents recorded feedback on fewer than 60% of their conversations.

CODING CALIBRATION

Support rate ranges from **45%** (Ofonime Asuquo) to **74%** (Okon Inyang). Agents are calling similar lists, so a spread this wide points to inconsistent coding, not different voters. **296** Positive calls have no feedback at all.

RECLASSIFICATION APPLIED

FOLLOW UP calls were screened by feedback: **70** → Undecided, **109** → Inapplicable, **28** → Positive.

ACTIONS FOR DAY 2

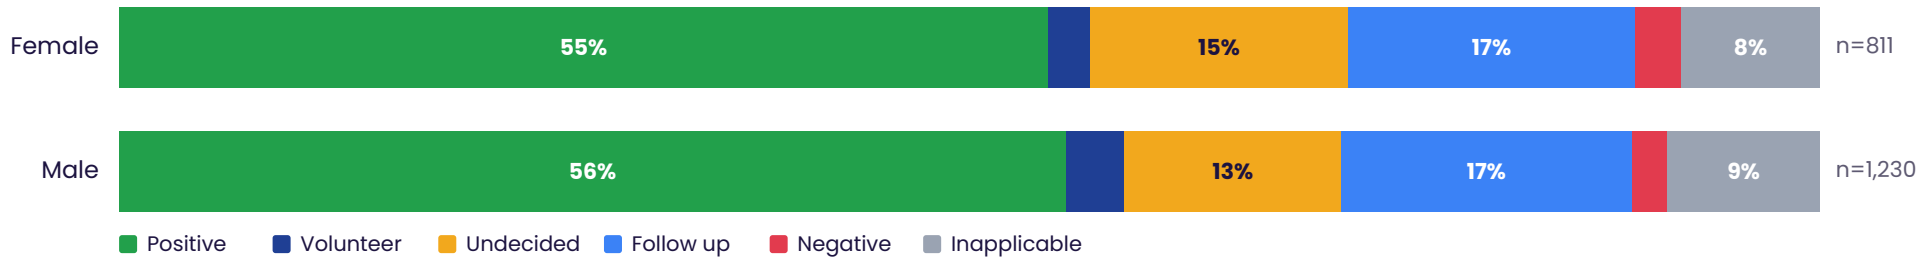

- Make feedback mandatory on every connected call.
- Staggered lunch and prayer breaks so lines never go fully quiet.
- Re queue the 374 follow ups for the first hour of Day 2.

WHAT DAY 1 TELLS US

About **6 in 10** voters engaged backed Sen. Ekpenyong and only **2.3%** were openly opposed. Among voters who gave a clear position, support stands at **79%**. Biase leads at **62%** and Bakassi trails at **52%**, but Calabar Municipal carries 26% of all conversations, so its 188 undecided and call back voters are the biggest pool to convert.

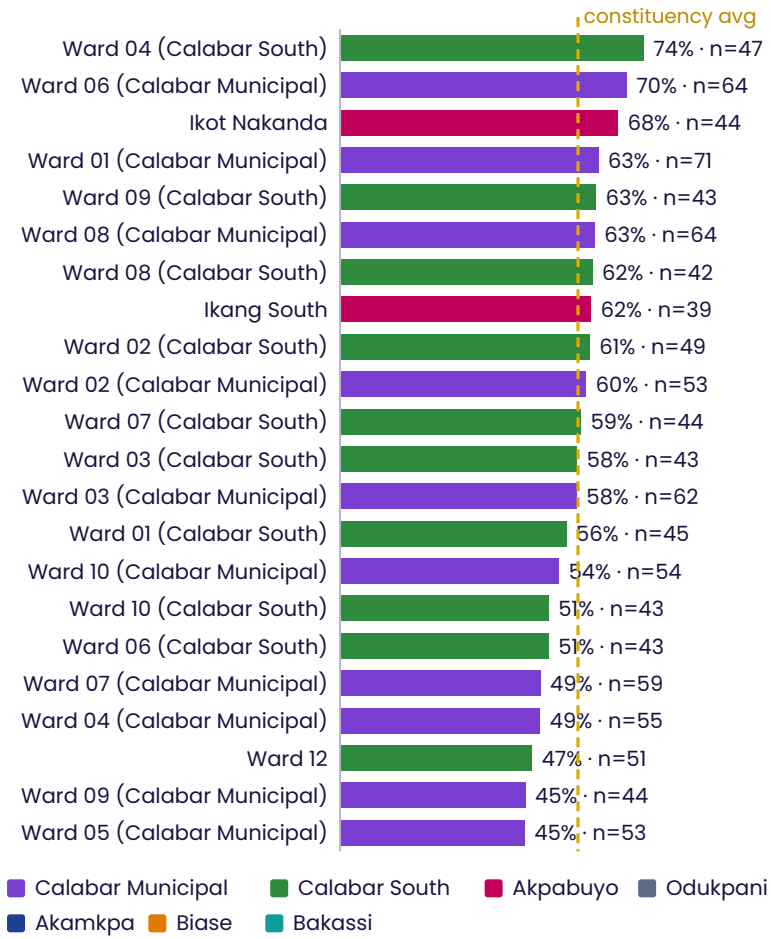

- **Positive** · Committed to vote for Sen. Ekpenyong
- **Follow up** · Needs a call back (network, busy, language, noise)
- **Volunteer** · Willing to work / mobilise for the campaign
- **Negative** · Opposed / other party
- **Undecided** · Not committed, hung up or conditional support
- **Inapplicable** · Wrong number, can't vote, not resident or not in town

WHERE SUPPORT IS STRONGEST

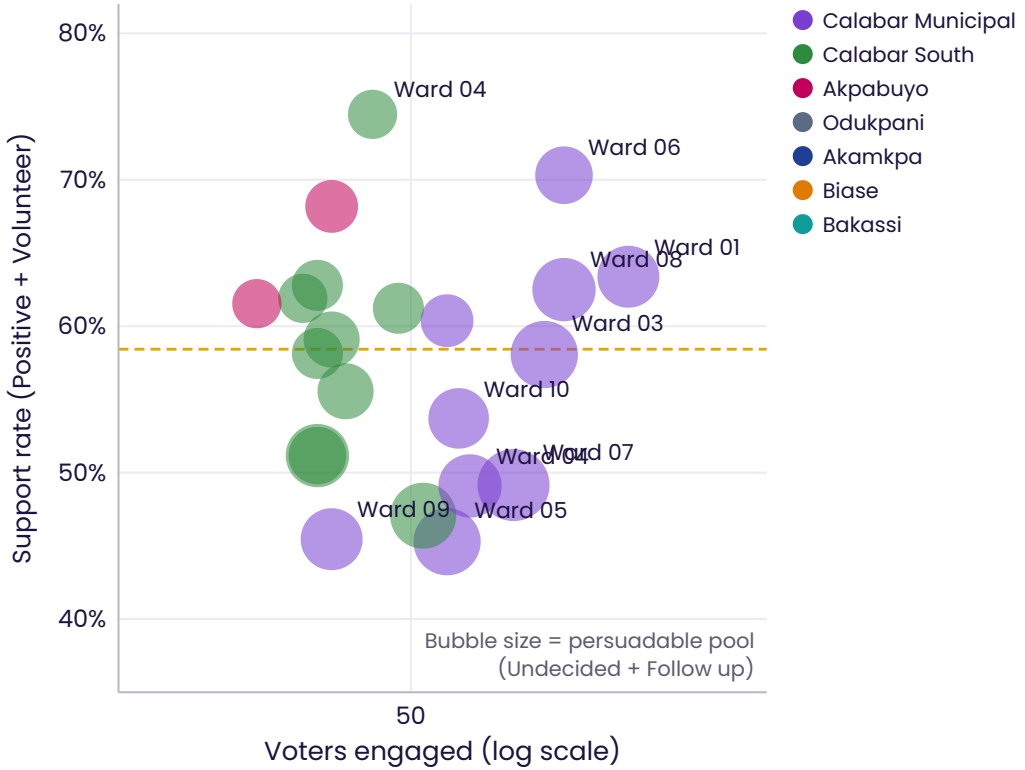

SUPPORT RATE BY WARD

Positive + Volunteer as % of voters engaged · colour = LGA · 22 largest wards

REACH × SUPPORT × PERSUADABLES

Interrelationship of the three ward drivers

Wards to the **right** are where we have talked to the most voters; wards **higher up** are warmer; **bigger bubbles** hold more undecided and call back voters still to be won.

WARD SIGNALS

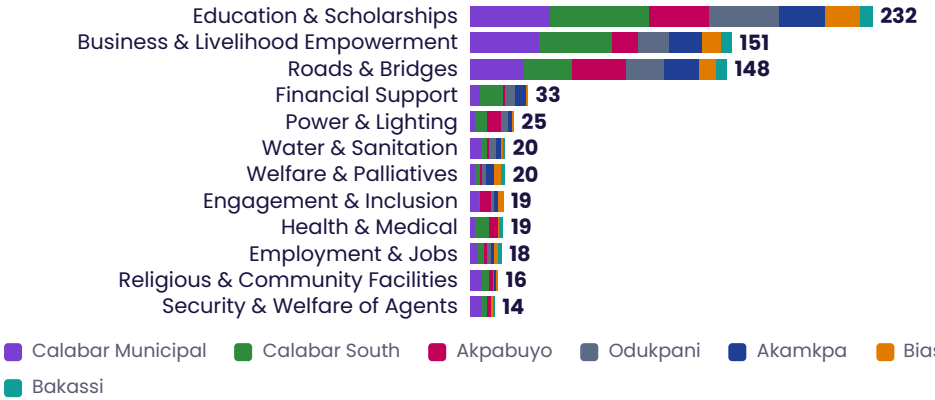

Ward 04 (Calabar South) is the warmest well covered ward (74% supportive, n=47). **Ward 05 (Calabar Municipal)** is the coolest (45%, n=53) and needs attention. **Ward 07 (Calabar Municipal)** holds the largest persuadable pool (26 undecided and call back voters). Ward 01 (Calabar Municipal) and Ward 08 (Calabar Municipal) alone make up 6% of all conversations, so the Day 2 call list should widen coverage across Bakassi wards.

33
voters asking for cash or funds

- **Strength:** 79% of decided voters back Sen. Ekpenyong, and 65 voters volunteered to work or mobilise for the campaign.
- **Risk:** the leading grievance is **party / governance discontent** (27 mentions).
- **Opportunity:** education & scholarships (232), business & livelihood empowerment (151), roads & bridges (148) lead the asks; visible action on these would convert undecided voters in Ward 09 (Calabar Municipal) and Ward 10 (Calabar South).

RECOMMENDATIONS

- **Rebalance the call list:** Ward 01 (Calabar Municipal) and Ward 08 (Calabar Municipal) took 6% of conversations. Push Bakassi and other under covered wards on Day 2.
- **Work the persuadables:** 301 undecided voters, mostly in Ward 09 (Calabar Municipal) and Ward 10 (Calabar South), are a priority call back list for senior agents.
- **Recycle the follow ups:** 374 voters asked for a call back. Re queue them for the next morning.
- **Escalate the needs list** to the campaign: education & scholarships, business & livelihood empowerment, roads & bridges, financial support dominate.
- **Engage the 65 volunteers** within 48 hours; several can mobilise others in their communities.
